Trucking Services

From our humble beginnings 60 years ago with a single 1948 Ford truck, to our current fleet of heavy haul tractors, cranes, and specialized movers, we are committed to excellence.

SUPOR is recognized as a national trucking and rigging company with the ability to offer transportation, warehousing, and rigging to satisfy our customers' needs whatever — and wherever — they are.

Our long-standing customers and their repeat business are proof of the personal care and attention we give to each project. We're a family owned and operated business, and we regard our customers as part of that family.

Whether it's a simple legal load, moving a 500-ton transformer, or recovering an aircraft or a train derailment, **SUPOR** provides a high level of expertise and professionalism to ensure complete success for our customers.

Specialized Jobs

SUPOR Trucking offers a complete collection of equipment and software that complies with the most rigorous safety standards and can satisfy most industry needs.

At **SUPOR**, our primary business is helping *your* business — putting our resources to work for you as a trusted one-stop partner for the “heavy lifting,” allowing you to focus on new ways to grow your operation.

Our full range of turnkey project services means that we can handle everything, including:

- Receiving goods and storing them at our state-of-the-art warehouse facilities
- Reloading cargo for road or rail transport
- Professionally rigging everything into place at its final destination

It's just another way that the **SUPOR** team has earned the premier reputation for attention to detail and exemplary customer service.

Heavy Haul

Whether it's a heavy-duty transformer, a fuel tank, or an infrastructure component ready to be installed somewhere across the country — or the hard-working heavy equipment needed to put it into place — the **SUPOR** Team has the resources, expertise, and experience you can trust. We can provide safe and secure transport of highly specialized, "**SUPOR**-Sized" loads up to 1,000 tons or more.

Major players in the utility, petrochemical, engineering, and pharmaceutical industries have relied on us to prepare and execute the delivery of specially configured, heavyweight, and over-dimensional loads — whether by long-haul trucking or connections with rail and water-based transport to any destination in the continental United States, Canada, or Mexico.

Rapid Bridge Deployment

With our newest **SUPOR** service, we can remove an old bridge and put a new one in its place in just 24 hours.

Catastrophic Recovery

SUPOR is recognized as experts in catastrophic recovery by major airlines, airport authorities, aircraft manufacturers (domestic and abroad), and rail companies. We operate safely and in a timely manner to help restore normalcy. Because we approach each project with the right equipment, we work efficiently and effectively — putting our customers at ease during each operation.

Miracle on the Hudson

SUPOR Heavy Haul lead the recovery project that lifted the damaged plane from the Hudson River in New York City.
